INTRODUCTION

We are pleased to provide the 2017 Paramount *Advantage*[™] Preferred Drug List as a useful reference and informational tool. This is a list of medications which are preferred by Paramount *Advantage* and commonly prescribed. Additionally, all other Medicaid-covered medications are covered for Paramount *Advantage* members, but some may require prior authorization (PA) for medical necessity. See the Advantage Drug Prior Authorization List. If you have questions about your prescription benefit or covered medications, please call Paramount Member Services at (800) 462-3589, TTY users (888) 740-5670.

The drugs represented have been reviewed by Paramount's Pharmacy and Therapeutics (P&T) Committee and are approved for inclusion on this formulary. The document is reflective of current medical practice as of the date of review.

The information contained in this document and its appendices is provided solely for the convenience of medical providers. We do not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature. This document is not intended to be a substitute for the knowledge, expertise, skill and judgment of the medical provider in his or her choice of prescription drugs. All the information in the document is provided as a reference for drug therapy selection. Specific drug selection for an individual patient rests solely with the prescriber.

The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

We assume no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

National guidelines can be found on the National Guideline Clearinghouse site at <http://www.guideline.gov>, on the websites listed under each therapeutic class and on the sites listed in the Websites section of this publication.

NOTICE OF NONDISCRIMINATION AND ACCESSIBILITY: Discrimination is Against the Law

Paramount complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability or sex. Paramount does not exclude people or treat them differently because of race, color, national origin, age, disability or sex.

Paramount provides:

- Free aids and services to people with disabilities to communicate effectively with us, such as:
 - Qualified sign language interpreters
 - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Free language services to people whose primary language is not English, such as:
 - Qualified interpreters
 - Information written in other languages

If you need these services, contact Member Services at 1-800-462-3589.

If you believe that Paramount has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability or sex, you can file a grievance. You can file a grievance in person or by mail, fax or email.

Member Services
1901 Indian Wood Circle, Maumee OH 43537

Fax: 419-887-2047
Email: Paramount.MemberServices@ProMedica.org

If you need help filing a grievance, Member Services is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at:

<https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>

or by mail or phone at:

U.S. Department of Health and Human Services
200 Independence Avenue SW
Room 509F, HHH Building
Washington, D.C. 20201
1-800-368-1019, 1-800-537-7697 (TDD)

Complaint forms are available at: <http://www.hhs.gov/ocr/office/file/index.html>

HOW TO SEARCH THIS DOCUMENT

To search this document for a specific medication or word, follow these steps:

1. With the PDF open, click on the *Edit* menu, choose *Find*.
2. In the Find box (in the upper right corner), type the name of the medication you want to find.
3. Click *Find Next* button until you find the medications you're looking for.

PREFACE

The document is organized by sections. Each section is divided by therapeutic drug class primarily defined by mechanism of action. Products are listed by generic name with brand name for reference only. Unless the cited drug is available as an injectable or an exception is specifically noted, generally, all applicable dosage forms and strengths of the drug cited are included in the document.

Generics should be considered the first line of prescribing subject to applicable rules. Paramount *Advantage* members do not have copays or cost sharing for drug coverage.

PHARMACY AND THERAPEUTICS COMMITTEE

Paramount's P&T Committee serves to approve safe and clinically effective drug therapies for inclusion on the formulary, with or without clinical limits. The P&T Committee is an advisory body of clinical professionals which includes physicians, specialists, pharmacists, etc. Voting members of the P&T Committee must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

DRUG LIST PRODUCT DESCRIPTIONS

To assist in understanding which specific strengths and dosage forms on the document are covered, examples are noted below. The general principles shown in the examples can usually be extended to other entries in the document. Any exceptions are noted.

Listed products on the document generally include all strengths and dosage forms of the cited brand-name product.

pregabalin

Lyrica

Oral capsules, oral solution and all strengths of Lyrica would be included in this listing.

When a strength or dosage form is specified, only the specified strength and dosage form is on the document. Other strengths/dosage forms, including injectable dosage forms of the reference product are not.

ciprofloxacin tabs

Cipro tabs

The oral tablet dosage form of ciprofloxacin is on the document. From this entry, the oral suspension cannot be assumed to be on the list unless there is a separate entry.

Extended-release and delayed-release products require their own entry.

carbamazepine

Tegretol

The immediate-release product listing of Tegretol alone would not include the extended-release product Tegretol-XR.

carbamazepine ext-rel

Tegretol-XR

A separate entry for Tegretol-XR confirms that the extended-release product is on the document.

Dosage forms on the document will be consistent with the category and use where listed.

neomycin/polymyxin B/hydrocortisone

Cortisporin

Since Cortisporin is listed only in the OTIC section, it is limited to the otic solution and suspension. From this entry the topical cream cannot be assumed to be on the list unless there is an entry for this product in the DERMATOLOGY section of the document.

GENERIC SUBSTITUTION

Generic substitution is a pharmacy action whereby a generic version is dispensed rather than a prescribed brand-name product. **Boldface type** indicates generic availability. However, not all strengths or dosage forms of the generic name in boldface type may be generically available. Branded medications on this list may no longer be preferred if generic equivalents become available. However, the document is subject to state specific regulations and rules regarding generic substitution and mandatory generic rules apply where appropriate.

Generic drugs are usually priced lower than their brand-name equivalents. Prescription generic drugs are:

- Approved by the U.S. Food and Drug Administration for safety and effectiveness, and are manufactured under the same strict standards that apply to brand-name drugs.
- Tested in humans to assure the generic is absorbed into the bloodstream in a similar rate and extent compared to the brand-name drug (bioequivalence). Generics may be different from the brand in size, color and inactive ingredients, but this does not alter their effectiveness or ability to be absorbed just like the brand-name drug.
- Manufactured in the same strength and dosage form as the brand-name drugs.

When a generic drug is substituted for a brand-name drug, you can expect the generic to produce the same clinical effect and safety profile as the brand-name drug (therapeutic equivalence).

PLAN DESIGN

Certain medications on the list are covered if utilization management criteria are met (i.e. Step Therapy, Prior Authorization, Quantity Limits, etc); requests for use of such medications outside of their listed criteria will be reviewed for medical necessity. If a medication is not listed on the document, a formulary exception may be requested for coverage. Medical necessity or formulary exception requests will be reviewed based on drug-specific prior authorization criteria or standard non-formulary prescription request criteria.

PRIOR AUTHORIZATION

Some medications on this list require prior authorization and are marked with **PA**. Your doctor may request prior authorization and provide evidence of medical necessity for these medications by obtaining a request form at www.paramounthealthcare.com or by faxing the request to Paramount at (844) 256-2025. Members may contact Paramount by calling (800) 462-3589, TTY (888) 740-5670. Prior authorization requests must be completed by your prescribing physician.

QUANTITY LIMITATIONS

Some drugs on this list may have quantity limits and are marked with **QL**. Most quantity limits are based on FDA guidelines for maximum dose. Your doctor may request prior authorization by providing evidence of medical necessity to exceed the limits by obtaining a request form at www.paramounthealthcare.com or by calling Paramount at (419) 887-2520. Members may contact Paramount by calling (800) 462-3589, TTY (888) 740-5670. Prior authorization requests must be completed by your prescribing physician.

STEP THERAPY

Some medications on this list are part of what is called "Step Therapy", and are marked with **ST**. Paramount wants your doctor to prescribe a step-one medication for you before using a step-two or step-three medication. The step-one drugs can be found on the Paramount *Advantage* Drug Prior Authorization list.

LEGEND

AL	Age Limit
OTC	Over the counter
PA	Prior Authorization
QL	Quantity Limit
SP	Specialty Drug
ST	Step Therapy
boldface	Indicates generic availability; boldface may not apply to every strength or dosage form under the listed generic name
delayed-rel	Delayed-release (also known as enteric-coated), refer to the reference brand listed for clarification
ext-rel	Extended-release (also known as sustained-release), refer to the reference brand listed for clarification

SP, QL	vigabatrin	SABRIL
	zonisamide	ZONEGRAN

ANTIDEMENTIA

Practice guidelines for the management of dementia are available at:
<http://www.aan.com>

	donepezil 5 mg, 10 mg	ARICEPT
	galantamine	RAZADYNE
	memantine soln	NAMENDA

ANTIDEPRESSANTS

Although these agents are primarily indicated for depression, some of these are also approved for other indications, including bipolar disorder, obsessive-compulsive disorder, panic disorder and premenstrual dysphoric disorder.

Guidelines for the evaluation and management of bipolar and depressive disorders are available at:
<http://www.psych.org>

Monoamine Oxidase Inhibitors (MAOIs)

	isocarboxazid	MARPLAN
	phenelzine	NARDIL
	tranylcypromine	PARNATE

Selective Serotonin Reuptake Inhibitors (SSRIs)

	citalopram	CELEXA
	escitalopram	LEXAPRO
	fluoxetine	PROZAC
	paroxetine HCl	PAXIL
ST	paroxetine HCl ext-rel	PAXIL CR
	paroxetine HCl susp	PAXIL
	sertraline	ZOLOFT

Serotonin Norepinephrine Reuptake Inhibitors (SNRIs)

	duloxetine delayed-rel	CYMBALTA
	venlafaxine	
	venlafaxine ext-rel	EFFEXOR XR

Tricyclic Antidepressants (TCAs)

	amitriptyline	
	amoxapine	
	desipramine	NORPRAMIN
	doxepin	
	imipramine HCl	TOFRANIL
	nortriptyline	PAMELOR
	protriptyline	

Miscellaneous Agents

	bupropion	
	bupropion ext-rel	WELLBUTRIN SR
	bupropion ext-rel	WELLBUTRIN XL
	chlordiazepoxide/amitriptyline	

	maprotiline	
	mirtazapine	REMERON
	nefazodone	
	trazodone	

ANTIPARKINSONIAN AGENTS

Practice guidelines for the diagnosis and treatment of Parkinson's disease are available at:
<http://www.aan.com>

	amantadine	
PA, SP, QL	apomorphine	APOKYN
	benztropine	
	bromocriptine	PARLODEL
