

## Prescriber Fax Request Form

### End Stage Renal Disease (ESRD) Always Drug List

## Paramount Elite

Access  
Management

Drugs used to ensure access by removing clots from grafts, reverse anticoagulation if too much medication is given, and provide anesthetic for access placement.

Anemia  
Management

Drugs used to stimulate red blood cell production and/or treat or prevent anemia. This category includes ESA (erythropoiesis-stimulating agents) as well as iron.

Bone and Mineral  
Metabolism

Drugs used to prevent/threat bone disease secondary to dialysis. This category includes phosphate binders and calcimimetics.

Cellular  
Management

Drugs used for deficiencies of naturally occurring substances needed for cellular management. This category includes levocarnitine.

This fax machine is located in a secure location as required by HIPAA regulations. Complete/review information, sign and date. Fax signed forms to CVS/Caremark at **1-855-633-7673**. Please contact CVS/Caremark at **1-855-344-0930** with questions regarding the prior authorization process. When conditions are met, we will authorize the coverage of ESRD Always Drug List (Coverage Determination).
