Section 1 – Introduction for HMO Members

This directory provides a list of Paramount Elite’s network providers.

You will have to choose one of our network providers listed in this directory to be your **Prietary Care Provider (PCP)**. Generally, you must get your health care services from your PCP. Your primary care provider is the doctor or other provider you see first for most health problems. He or she makes sure you get the care you need to keep you healthy. He or she also may talk with other doctors and health care providers about your care and refer you to them. The following types of physicians may act as your PCP: family practice physicians, general practice physicians, internal medicine physicians, independent primary care nurse practitioners, pediatric physicians, and adolescent medicine physicians.

The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory. Paramount Elite does not require referrals for network doctors, specialists and hospitals; however, some services may require **prior authorization**. It is important to know which providers are part of our network because, with limited exceptions, while you are a member of our plan you must use network providers to get your routine medical care and services. In some cases, you may get covered services from non-network providers. Paramount Elite will authorize the use of out-of-network providers (for example, when providers of specialized services are not available in-network).

There may be times when you get a bill from a non-contracted provider for the full cost of the medical care you have received. You should send this bill to us instead of paying it. We will look at the bill and decide whether the services should be covered. If we decide they should be covered, we will pay the provider directly and we will let you know what, if anything, you must pay.

You may get emergency medical care wherever you need it, anywhere in the United States from the nearest available provider. Urgent care may also be obtained from the nearest urgent care provider. Paramount Elite will talk with the providers who are giving you emergency care to help manage and follow up on your care. This includes any required post-stabilization care.

You must use network providers except in emergency or urgent care situations or for out-of-area renal dialysis or other services. If you obtain routine care from out-of-network providers, neither Medicare nor Paramount Elite will be responsible for the costs.

Section 1 – Introduction for PPO Members

This directory provides a list of Paramount Elite’s network providers.

This directory represents a list of providers who are in our network. While you can choose to get care from an out-of-network provider, the provider must be eligible to participate in Medicare. Except for emergency care, we cannot pay a provider who is not eligible to participate in Medicare. Check with your provider before receiving services to confirm they are eligible to participate in Medicare.

When you become a member of our plan, you will have to choose one of our network providers listed in this directory to be your **Primary Care Provider (PCP)**. Generally, you must get your health care services from your PCP. *Your PCP can coordinate the covered services you get as a member of our plan.* The following types of professionals may act as your PCP: family practice physicians, general practice physicians, internal medicine physicians, Certified Nurse Practitioners, Certified Physician Assistant, pediatric physicians, and adolescent medicine physicians. For more information regarding your PCP, please see Evidence of Coverage Chapter 3 Section 2.1.

The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory. Paramount Elite does not require referrals for network doctors, specialists and hospitals; however, some services may require **prior authorization**. As a member of our plan, you can choose to receive care from out-of-network providers. However, please note providers that do not contract with us are under no obligation to treat you, except in emergency situations. Our plan will cover services from either network or out-of-network providers, as long as the services are covered benefits and are medically necessary. However, **if you use an out-of-network provider, your share of the costs for your covered services may be higher.**

Out-of-network providers are under no obligation to treat Paramount Elite PPO enrollees, except in emergencies. For a decision about whether we will cover an out-of-network service, we encourage you or your provider to ask us for a pre-service organization determination before you receive the service. Please call our Member Service Department at 833-554-2335 (TTY: 711), 8 a.m. – 8 p.m., Monday - Friday. You may also refer to your Evidence of Coverage (EOC) for more information, including the cost sharing that applies to out-of-network services.

It is best to ask an out-of-network provider to bill the plan first. But, if you have already paid for the covered services, we will reimburse you for our share of the cost for covered services. Or if an out-of-network provider sends you a bill that you think we should pay, you can send it to us for payment. See Chapter 7 (*Asking us to pay our share of a bill you have received for covered medical services or drugs*) for information about what to do if you receive a bill or if you need to ask for reimbursement.

Paramount Elite Preferred PPO members may obtain emergency services from the closest available provider. **You do not need to use a network provider for emergency services** and may obtain urgently needed services from any qualified provider when out of the plan’s service area or when network providers are unavailable.
